PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with hands-on experience building scalable web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Proficient in developing RESTful APIs, implementing JWT-based authentication, and designing responsive UIs with Tailwind CSS and Bootstrap. Experienced in real-time systems using Socket.IO, third-party API integrations (Twilio Voice SDK), and version control workflows with Git and GitHub. Passionate about SEO optimization, clean code practices, and delivering user-centric digital solutions.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), PHP

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI

Backend: Node.js, Express.js

Databases: MongoDB, MySQL

Authentication & Security: JWT, Role-Based Access Control (RBAC), bcrypt

Real-Time & APIs: Socket.IO, RESTful APIs, Twilio Voice SDK, Webhook Handling

Testing & Debugging: Jest, Mocha, Postman

DevOps & Tools: Git, GitHub, VS Code, Cloud Deployment

Other: SEO Optimization, Agile Collaboration, UI/UX Best Practices

WORK EXPERIENCE

Junior Full-Stack Developer | Innovano Technology Solutions Pvt. Ltd.

Aug 2025 – Mar 2026

- Developed and maintained full-stack web application features using React.js, Node.js, Express.js, and MongoDB, contributing to both frontend and backend codebases.
- Built a real-time CRM and Visitor Management System using Socket.IO and Twilio Voice API, enabling live call assignment, agent status tracking, and browser-based calling for telecaller workflows.
- Implemented role-based dashboards for Admin, Manager, Telecaller, and Visitor personas with secure JWT authentication and RBAC.
- Integrated Twilio Voice SDK for browser-based inbound/outbound calling with webhook-based real-time call event management.
- Developed a Visitor Management Module covering registration, check-in/check-out tracking, enquiry handling, and access control.
- Conducted unit testing and API testing using Jest, Mocha, and Postman to ensure software reliability and reduce production bugs.
- Designed responsive, mobile-friendly UIs using Tailwind CSS and Material UI, improving cross-device user experience.
- Collaborated with senior developers to implement new features and enhancements aligned with client requirements.

PROJECTS

CRM & Visitor Management System

- Built a real-time CRM platform using React.js, Node.js, Express.js, MongoDB, Socket.IO, and Twilio Voice API for enterprise telecaller operations.
- Engineered a telecaller dashboard with live call assignment, agent status monitoring, break management, missed call tracking, and call logs.
- Implemented browser-based inbound/outbound calling using Twilio Voice SDK with real-time call event updates via Socket.IO.

- Developed Visitor Management Module with visitor registration, check-in/check-out, enquiry handling, and user-based access control.
- Designed role-based dashboards (Admin, Manager, Telecaller, Visitor) with RESTful APIs and JWT-secured authentication.

Digital Agency ERP System

- Developed a full-stack ERP system using the MERN stack with role-based authentication for Admin, Manager, and User roles.
- Built modules for Client Management, Project Management, and Task Management with full CRUD operations and status tracking.
- Designed a user-specific dashboard displaying assigned tasks with real-time status and progress updates.
- Integrated a WhatsApp notification system to alert managers of employee leave requests in real time.
- Secured all REST APIs using JWT authentication and RBAC; used Git/GitHub for version control and deployed to cloud platforms.

Lee Fight Club – Web Platform

- Designed and developed a dynamic, responsive web platform for Lee Fight Club using React.js, Node.js, and MongoDB.
- Implemented user authentication and role-based access control (RBAC) for secure member management.
- Applied SEO best practices including semantic HTML, metadata optimization, and performance tuning to boost site visibility.

Expense Tracking Application

- Built a full-stack expense tracker using React.js, Node.js, and MongoDB with secure user authentication and real-time expense tracking.
- Implemented RESTful APIs for seamless data management and designed a clean, responsive UI for smooth user experience.

EDUCATION

Master of Computer Applications (MCA)

Annamalai University, Chidambaram

May 2024

Bachelor of Computer Applications (BCA)

J.J. College, Pudukkottai

May 2022

CERTIFICATIONS

Internship Certificate – Full Stack Development [\[View Certificate\]](#)

BrandBee Technologies, 2024

ADDITIONAL

Languages: English, Tamil

Design Tools: Adobe Photoshop

Freelance Achievement: Designed and sold personalized digital art and custom designs to 17+ clients, achieving a 20% increase in sales and 10% improvement in client satisfaction.
